The winter is always very desirous of getting any items of news that have not been given out and any person who may have them can submit them in by mail addressing them to C. R. Speer but they must in every case be sure and sign their names to them. Quite often good items are unable to do so but as they are not guaranteed they never reach the news column. I make mention of his name that what you may have in the way of news will be assured of reaching the paper and not the waste basket.

OUR NEW ARMORY.

It is practically settled that Connellsville will have a handsome armory for housing Company D. It is announced that the State Armory Board has so decided, which means that they have accepted the offer of the Town Council of sufficient ground on City Hall Square for this purpose.

The Courier was the original advocate of putting the long neglected Public Ground to public use. The City Hall resulted, and we are anxious to know more there, and now appears to be determined upon. At our instance Congress-man Acheson introduced in Congress a bill for a Federal Building in Connellsville. Congressmen in Cooper followed it up at our suggestion, and it now promises in due time to become a substantial fact.

All of which shows that a live newspaper intelligently directed can accomplish much to vindicate the uprightness of the community in which it is published. The continued dropping of the white wings the stately away, and the constant desire of public improvements in the public mind, sets the sluggish blood of official action.

A \$20,000 P. O. SITE.

Burkeston County is out of the running as a postoffice site. That \$20,000 appropriation won't come within square of it or either Pittsburg or Mahi streets but there's a beautiful back lot right in the rear of the Courier building and quite handy to us that could be bought without the app option.

It would also be handy to the pub. It. Almost everybody comes to the Courier office and it would be only a step further to the new postoffice.

A small road less seems to be an option in the rural districts and especially in the mountain townships. It is evident that good roads are controlled by custom and not by business principles.

Elijah III has met his Dolllah.

John Peter Shindel Gobin is a living example of the fact that some good things come to those who have patience to wait for them.

"Play ball" is a decision that has been revised so far as the streets of Connellsville are concerned. Back to the back for! is the command of Burgess Simpson.

The blithous old strike continues in a state of delightful uncertainty to extent and duration.

If the taxin miners should succeed in getting an advance of five percent over the 10% scale, the other miners will be quite certain that they have been gold-banked.

Business seasons ought to take a census and apply for a raise in salary.

Springfield township's Road Superintendents seem to have discriminated against the old soldiers. That the sentiment of the country is unalterably opposed to discrimination is evidenced in the following:

by the railway rate question. The Springfield Town Road Supervisors are pulling against the streets.

The Senate and Appropriation sum will be fought over again in the courts.

It seems to be pretty well established that the legitimate bills of health authority must be paid by the boat owners.

The Ligonton valley is in about a toley as well as a rail line. The population must be on the increase.

The independent fire brick company is still a new proposition.

The Mt Pleasant man decided the idea that Connellsville would be selected as an army site but the developed and rejected has become the corner stone of many buildings in the coke region.

The noise is settling around the neck of Givaudan Mallard.

The Report Courteous.

The Somerset Heald says the fair may be very know what a mortgagor or a judge is like this day where the man who first could be paid off with them.

The sale of their coal lands has made Somerset County famous. They own them with the exception of a few acres in the Allegheny River valley. The Heald proposed buying out the coal companies. They were not able to do this due to the fact that the men were not willing to sell. It is suspected that there was more politics than business in this.

The New York Tribune says the Intercourse Grange thinks it is a pity that the State Fair is not to be held in the city of Pittsburg.

The Scotch Independent wants to put up a new building on the site of the old one.

We hope Somersett will be successful in getting them to do this.

The Weybridge Independent says the Scotch Independent wants to put up a new building on the site of the old one.

Sheеле thinks not a sober and well behaved girl.

The Mt Pleasant Journal suggests a mining school in connection with the Mt Pleasant Institute.

The school is to be a branch of the settlement school, and the Mt Pleasant Institute wants most likely no mining school in the Connellsville coke region, and there is to be no mining school in the Connellsville coke region.

200TH ANNIVERSARY.

In behalf of the Presbyterian General Assembly, Rev. James D. Moran, D. D., moderator, and Rev. William H. Roberts, D. D., stated clerk, have issued the following statement relative to the 200th anniversary of the organization of the Presbyterian Church:

The Presbyterian Church in the U. S. A. reached its 200th anniversary last year. While isolated Presbyterian congregations were found from an early date in the colonies, the first organized church in America was not established until 1706. At the first meeting the number of members was seven. This presbyterian community, however, did not remain long in the city, but moved to New York in 1708. The next year the church was organized in New York, and the name was changed to "First Presbyterian Church." In 1710 it was renamed "First Presbyterian Church of New York."

It was not until 1716 that the first presbyterian church in America was organized in Philadelphia. This church, however, was not organized until 1733, and the name was changed to "First Presbyterian Church of Philadelphia."

The New French Back Overcoats \$20

The change in the overcoat style is decidedly the most radical in many seasons. It follows the general trend of 1906 fashions and dates its mold back to the reign of Napoléon. It therefore leans strongly to a military effect with its waist conformity and wide flaring skirts.

We are showing these in a wide range of colors and the very cut of them demands for them a place in every well equipped wardrobe, \$20.00 and \$22.50

HERE are the stocks of Easter dress, wraps and millinery selected in strict accordance with fashion's demands. Here are the most comprehensive stocks of men's suits and overcoats, the handsomest, most correct and perfectly fitting clothing existing anywhere, ready-made. Here is boys' clothing distinctly better than is to be found elsewhere, splendid stocks of girls' dresses and infants' wear.
